

the first P2P platform for exchanging USD and USDT without verification

PlanetXchange

No borders

Works anywhere in the world.

No verification required

Join the bot and get started.

No forced exchange rates

You set your own exchange rate.

No bank traces

No one will ask where the money came from.

How it works

1

Open the bot

Open the Telegram bot @PlanetXchangeBot and complete a simple setup.

2

Choose your city

Select where you want to make an exchange. The platform will show you listings near you.

3

Find a trader

Check out offers or create your own. Users have ratings and trade history – work with those who have a good reputation.

4

Settle the details in chat

Work out the amount, rate, and where and when to meet – all inside the app.

5

Meet in person

Exchange cash for crypto – or crypto for cash. Simple as that.

6

Leave a review

Rate the other user after the deal. If something goes wrong – contact support, and rule breakers will be banned.

Safety

No personal data

We don't ask for your ID, address, or phone number. Sign up through Telegram – that's it.

Peer-to-peer only

We don't handle your exchanges. Every deal is made directly between you and the other user.

Scammers get banned

Report dishonest users to support. We'll review the case and ban scammers.

Invite users and earn rewards with our referral program

Earn from your referrals – and from everyone they bring in too.

How to join the program

Use a referral link or enter a referral code

1

Deposit \$10 to unlock the program – it's a one-time fee

2

Get your referral link and start inviting friends

3

Grow your network, grow your earnings.
